1 Product and Company Identification

**Product identifier**: Low Pressure High Output Amalgam UV Lamp

**CAS #**: Mixture

**Product use**: Ultraviolet (UV) Lamp

**Recommended restrictions**: None known

**Manufacturer information**: Trojan Technologies

**Australian supplier**: Alastair MacNab

3020 Gore Road
London, ON N5V 4T7 CA
Phone: 519-457-3400
Phone: 888-220-6118

**Technical assistance #**: Phone: 866-388-0488

**Australian emergency #**: Phone: 011 03 97283953

**Mobile**: 011 0488 080069

2 Hazards Identification

**Physical hazards**: Not applicable to intact lamps.

**Health hazards**: Not applicable to intact lamps.

**Environmental hazards**: Not applicable to intact lamps.

**WHMIS 2015 defined hazards**

**Label elements**

- **Hazard symbol**: Not applicable to intact lamps.
- **Signal word**: Not applicable to intact lamps.
- **Hazard statement**: Not applicable to intact lamps.

**WHMIS 2015: Health Hazard(s) not otherwise classified (HHNOC)**: None known

**WHMIS 2015: Physical Hazard(s) not otherwise classified (PHNOC)**: None known

**Hazard(s) not otherwise classified (HNOC)**: None known

**Supplemental information**: None

3 Composition/Information on Ingredients

**Composition Comments**: *Lamp consisting of quartz glass containing mercury amalgamated with metal(s).
SAFETY DATA SHEET

4 First Aid Measures

<table>
<thead>
<tr>
<th>Ingestion</th>
<th>Not applicable to intact lamps.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Skin Contact</td>
<td>Not applicable to intact lamps.</td>
</tr>
<tr>
<td>Eye Contact</td>
<td>Not applicable to intact lamps.</td>
</tr>
<tr>
<td>Inhalation</td>
<td>Not applicable to intact lamps.</td>
</tr>
<tr>
<td>General Information</td>
<td>Burns caused by overexposure or severe injuries caused by fragment of quartz glass should be treated by a physician. Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. If you feel unwell, seek medical advice (show the label where possible). Show this safety data sheet to the doctor in attendance. Avoid contact with eyes and skin. Keep out of reach of children. There are no known health hazards from exposure to intact, un-energized lamps.</td>
</tr>
</tbody>
</table>

5 Fire Fighting Measures

<table>
<thead>
<tr>
<th>Flammable properties</th>
<th>Not flammable by WHMIS/OSHA criteria.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Suitable extinguishing media</td>
<td>Extinguishing powder, foam, or water.</td>
</tr>
<tr>
<td>Unsuitable extinguishing media</td>
<td>Not available</td>

6 Accidental Release Measures

<table>
<thead>
<tr>
<th>Personal precautions, protective equipment and emergency procedures</th>
<th>Keep unnecessary personnel away. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Methods and materials for containment</td>
<td>In the event of a lamp breakage, appropriate action should be taken to contain the amalgam mercury.</td>
</tr>
<tr>
<td></td>
<td>In a dry scenario where the lamp is not operating, solid amalgam mercury can be easily captured.</td>
</tr>
<tr>
<td></td>
<td>In an operating closed- or open-channel system, a lamp breakage inside an intact sleeve can be easily captured.</td>
</tr>
<tr>
<td></td>
<td>In an operating closed- or open-channel system, in case of a lamp and sleeve breakage in a system treating the water flow, no containment measure is available.</td>
</tr>
<tr>
<td></td>
<td>Prevent entry of the solid amalgam mercury into waterways, sewers, or other catchment systems.</td>
</tr>
<tr>
<td>Methods and materials for cleanup</td>
<td>If lamps are broken, ventilate the area where the breakage occurred.</td>
</tr>
<tr>
<td></td>
<td>Take the usual precautions for collecting broken glass.</td>
</tr>
<tr>
<td></td>
<td>Clean up with a mercury vacuum cleaner or with other suitable means that avoids dust and mercury vapor generation.</td>
</tr>
<tr>
<td></td>
<td>DO NOT USE A STANDARD VACUUM.</td>
</tr>
</tbody>
</table>
SAFETY DATA SHEET

Place collected materials in a closed container to avoid generating dust.

In the event of a lamp breakage, appropriate action should be taken to contain the spill (solid Hg amalgam).

Additional guidance on cleaning up broken lamps may be obtained at:
http://www2.epa.gov/cfl/cleaning-broken-cfl#instructions.

Environmental precautions
Do not discharge into lakes, streams, ponds or public waters.
Do not contaminate water courses or ground.
Prevent entry into waterways, sewers, basements or confined areas.
This material is a water pollutant and should be prevented from contaminating soil or from entering sewage and drainage systems and bodies of water. Prevent entry into waterways, sewers, basements or confined areas.
This material is a water pollutant and should be prevented from contaminating soil or from entering sewage and drainage systems and bodies of water.

7 Handling and Storage

Precautions for safe handling
Handle carefully to avoid breakage.
Ensure adequate ventilation.
Use good industrial hygiene practices in handling this material.

Conditions for safe storage, including any incompatibilities
Keep out of reach of children. Keep in properly labeled containers.

8 Exposure Controls/Personal Protection

Occupational exposure limits

</tr>
</tbody>
</table>

Exposure limits
Exposure to mercury is only possible due to lamp breakage, refer Section 6.

Biological limit values
No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls
Use only under good ventilation conditions.

Individual protection measures, such as personal protective equipment, Eye/face protection
Avoid contact with eyes. Wear appropriate safety glasses with side shields (or goggles).

In operation, UV lamps emit non-ionizing radiation in the 180~400 nanometer wavelength region of the electromagnetic spectrum. The UV light intensity greatly exceeds levels found in nature.

Exposure can result in temporary or permanent eye injury, skin burns or other serious effects.

Individuals present where UV lamps are in operation are at risk for UV exposure if the appropriate shielding and Personal Protective Equipment (PPE) are not used.

Refer to product manuals and product warning labels for safe operating procedures and Personal Protective Equipment.

Skin protection: Hand protection
Avoid contact with the skin. Wear impervious gloves. Confirm from a reputable supplier first. If glass is broken, use cut resistance gloves to prevent injury.
SAFETY DATA SHEET

Other
Emergency responders should wear impermeable clothing and footwear when responding to a situation where contact with the mercury liquid is possible.
Wash hands IMMEDIATELY if mercury leakage occurs.
Contaminated clothes must be changed immediately and discarded appropriately.

Respiratory protection
Where exposure guideline levels may be exceeded, use an approved NIOSH respirator.

Thermal hazards
Not applicable

General safety and hygiene consideration
Ultraviolet radiation is emitted from the lamps. Use of approved eye and skin protection to block UV radiation. Handle in accordance with good industrial hygiene and safety practice.

Emergency overview

The lamp, which consists of quartz glass, is not dangerous under regular conditions. This item is a manufactured article. The mercury within the lamp is only available if the lamp is broken. Please follow standard health and safety guidelines for the use of this product.

The following statements are applicable only in case of accidental breakage of the lamp:

Routes of exposure
Eye, Skin contact, Skin absorption, Inhalation, Ingestion.

Information on likely routes of exposure:

- **Eyes**
  May cause irritation.

- **Skin**
  May cause irritation.

US ACGIH Threshold Limit Values: Skin designation

Mercury (CAS 7439-97-6) Hg Can be absorbed through the skin.

US. NIOSH: Pocket Guide to Chemical Hazards

Mercury (CAS 7439-97-6) VAP Hg Can be absorbed through the skin.

Inhalation
May cause respiratory tract irritation.

Ingestion
May cause stomach distress, nausea or vomiting.

Dermal
May cause irritation.

Chronic Effects
Long-term occupational exposure to moderate to high levels of mercury (0.035 to 0.1 mg/m3) has resulted in both nervous system and kidney effects. Significant toxicity has been observed in animals exposed to low concentrations.

Signs and symptoms
Symptoms of overexposure may be headache, dizziness, tiredness, nausea and vomiting.

12 Ecological Information

SAFETY DATA SHEET

Other Information

For an updated SDS, please contact the supplier/manufacturer listed on the first page of the document.

In the event of a lamp breakage, appropriate action should be taken to contain the spill. Lamp breakage can occur in several scenarios, each requiring different action. In an operating closed- or open-channel system, a lamp and sleeve break will be very difficult to contain since the mercury vapor will quickly condense, be diluted, and subsequently carried away by the flowing wastewater/water stream. Please refer to the Section 6 in order to respond to a lamp breakage.
