SAFETY DATA SHEET

SECTION 1: IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

1.1. Product identifier
   Product name: AquaSorb C Series
   Product code: Activated Carbon.

1.2. Relevant identified uses of the substance or mixture and uses advised against
   Use as an adsorbent in industrial, professional and consumer setting.

1.3. Details of the supplier of the safety data sheet
   Registered company name: Jacobi Carbons, Inc.
   Address: 432 McCormick Boulevard.OH 43213.Columbus.United States.
   Telephone: +1 215 546 3900. Fax: +1 215 546 9921.
   msds@jacobi.net
   www.jacobi.net

1.4. Emergency telephone number: +1 215 546 3900.
   Association/Organisation: Jacobi Carbons, Inc.

SECTION 2: HAZARDS IDENTIFICATION

2.1. Classification of the substance or mixture
   GHS compliant.
   This substance does not present a physical hazard. Refer to the recommendations regarding the other products present on the site.
   This substance does not present a health hazard with the exception of possible occupational exposure thresholds (see paragraphs 3 and 8).
   This substance does not present an environmental hazard. No known or foreseeable environmental damage under standard conditions of use.

2.2. Label elements
   GHS compliant.
   No labelling requirements for this substance.

2.3. Other hazards
   May cause CO and CO2 emanations in the event of a fire.
   Wet Activated Carbon depletes oxygen from air and, therefore, dangerously low levels of oxygen may be encountered. Whenever workers enter a vessel containing activated carbon, the oxygen content should be determined and work procedures for potentially low oxygen areas should be followed.
SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

3.1. Substances

Composition:

</tbody>
</table>

Information on ingredients:
A porous, amorphous, high surface area adsorbent material composed largely of elemental carbon.

[1] Substance for which maximum workplace exposure limits are available.

SECTION 4: FIRST AID MEASURES

As a general rule, in case of doubt or if symptoms persist, always call a doctor.
NEVER induce swallowing by an unconscious person.

4.1. Description of first aid measures

In the event of exposure by inhalation:
Fresh air, rest.
Obtain medical attention if cough or respiratory symptoms develop.

In the event of splashes or contact with eyes:
Wash thoroughly with fresh, clean water for 15 minutes holding the eyelids open.
If there is any redness, pain or visual impairment, consult an ophthalmologist.

In the event of splashes or contact with skin:
Watch out for any remaining product between skin and clothing, watches, shoes, etc.
Rince with water and soap.
Remove contaminated clothes.
Obtain medical attention if irritation becomes apparent.

In the event of swallowing:
Seek medical attention, showing the label.
Give at least 1/2 L of water to drink.
Obtain mediical attention if gastrointestinal symptoms develop.
Do not induce vomiting.

4.2. Most important symptoms and effects, both acute and delayed
When large amounts are ingested orally, congestion may occur.

4.3. Indication of any immediate medical attention and special treatment needed
Specific and immediate treatment:
N/A

Information for the doctor:
Medications efficiency can be reduced by the adsorbing power of the activated carbon.
SECTION 5 : FIREFIGHTING MEASURES

5.1. Extinguishing media

Suitable methods of extinction
In the event of a fire, use:
- sprayed water or water mist
- carbon dioxide (CO2)
- foam
- powder

Unsuitable methods of extinction
In the event of a fire, do not use:
- water jet
in the closed areas, in order to avoid the water contamination.

5.2. Special hazards arising from the substance or mixture
A fire will often produce a thick black smoke. Exposure to decomposition products may be hazardous to health.
Do not breathe in smoke.
In the event of a fire, the following may be formed:
- carbon monoxide (CO)
- carbon dioxide (CO2)
- other decomposition products for the saturated activated carbon.
After a fire, smoldering hotspots within the activated carbon may be present for a long time.
Activated Carbon which has been allowed to smolder for a long time in a confined space may accumulate carbon monoxide above its lower explosion limit.

5.3. Advice for firefighters
Due to the toxicity of the gas emitted on thermal decomposition of the products, fire-fighting personnel are to be equipped with autonomous insulating breathing apparatus.

SECTION 6 : ACCIDENTAL RELEASE MEASURES

6.1. Personal precautions, protective equipment and emergency procedures
Consult the safety measures listed under headings 7 and 8.

For first aid worker
First aid workers will be equipped with suitable personal protective equipment (See section 8).

6.2. Environmental precautions
Prevent any material from entering drains or waterways.

6.3. Methods and material for containment and cleaning up
Retrieve the product by mechanical means (sweeping/vacuuming).

6.4. Reference to other sections
See also sections 2 & 8

SECTION 7 : HANDLING AND STORAGE
Requirements relating to storage premises apply to all facilities where the substance is handled.

7.1. Precautions for safe handling
Always wash hands after handling.
Prevent dust generation. Apply good working practices and engineering procedures during discharge.
See the exposure controls and personal protection measures in the section 8.
Fire prevention:
- Prevent access by unauthorised personnel.
- Prevent dust generation.
- Keep away from heat sources.
- Immediately retrieve the product in case of spilling

Recommended equipment and procedures:
- For personal protection, see section 8.
- Observe precautions stated on label and also industrial safety regulations.
- Ensure containment and adequate ventilation.
- Whenever workers enter a vessel containing activated carbon, the oxygen content should be determined and work procedures for potentially low oxygen areas should be followed.

Prohibited equipment and procedures:
- No smoking, eating or drinking in areas where the substance is used.

7.2. Conditions for safe storage, including any incompatibilities
- Keep away from any chemical (solvents and strong oxidisers).
- Keep away from heat sources.
- Store in a well-ventilated area.
- Keep the container away from dampness

Storage
- Store and keep away from any chemical (solvents and strong oxidisers).
- Storage of wet activated carbon in a closed area can deplete oxygen from air.

Packaging
- Always keep in packaging made of an identical material to the original.
- Store in the closed, original packaging.

7.3. Specific end use(s)
- No data available.

SECTION 8 : EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1. Control parameters

Occupational exposure limits:
- Non otherwise classified dusts : 10 mg/m³

<table>
<thead>

AquaSorb C Series - Activated Carbon

Final use: Consumers.
Exposure method: Inhalation.
Potential health effects: Short term local effects.
DNEL: 0.5 mg of substance/m3

Exposure method: Inhalation.
Potential health effects: Long term systemic effects.
DNEL: 0.5 mg of substance/m3

8.2. Exposure controls

Appropriate engineering controls
Local exhaust ventilation is recommended.
For the use of Granular Activated Carbon, no risk management measures are mandatory, but only recommended.

Personal protection measures, such as personal protective equipment
Use personal protective equipment that is clean and has been properly maintained.
Store personal protective equipment in a clean place, away from the work area.
Never eat, drink or smoke during use. Remove and wash contaminated clothing before re-using. Ensure that there is adequate ventilation, especially in confined areas.

- Eye / face protection
Avoid contact with eyes.
Before handling powders or dust emission, wear mask goggles in accordance with standard EN166.

- Hand protection
Wear suitable protective gloves in the event of prolonged or repeated skin contact.

- Body protection
Work clothing worn by personnel shall be laundered regularly.
After contact with the product, all parts of the body that have been soiled must be washed.

- Respiratory protection
Avoid breathing dust.
Type of FFP mask:
- FFP2
Particle filter according to standard EN143:
- P (White)

Exposure controls linked to environmental protection
Local exhaust ventilation to remove material at source.
Contained storage.
Regulated waste disposal.

SECTION 9 : PHYSICAL AND CHEMICAL PROPERTIES

9.1. Information on basic physical and chemical properties

General information:
Physical state: Solid in granules.
Odour: None
Color: Black

Important health, safety and environmental information
pH: Not relevant.
pH (aqueous solution): 7-11
AquaSorb C Series - Activated Carbon

Boiling point/boiling range: Not specified.
Flash point interval: Not relevant.
Explosive properties, lower explosivity limit (%): NA
Explosive properties, upper explosivity limit (%): NA
Vapour pressure (50°C): Not relevant.
Vapour density: NA
Density: 200-700 kg/m³
Method for determining the density: ASTM D2854
Miscibility: NA
Water solubility: Insoluble. 0
Partition coefficient: n-octanol/water: NA
Viscosity: NA
Evaporation rate: NA
Melting point/melting range: Not specified.
Self-ignition temperature: Not specified.
Decomposition point/decomposition range: Not specified.

9.2. Other information
Physical and chemical properties of the saturated activated carbon may be different from the virgin material.

SECTION 10 : STABILITY AND REACTIVITY

10.1. Reactivity
This product shows no reactivity under the specified conditions of storage, shipment and use.

10.2. Chemical stability
This substance is stable under the recommended handling and storage conditions in section 7.

10.3. Possibility of hazardous reactions
In contact with solvents and strong oxidisers.

10.4. Conditions to avoid
Avoid:
- humidity
- formation of dusts
- heating
- heat
Dusts can form an explosive mixture with air.

10.5. Incompatible materials
Keep away from:
- strong oxidising agents
- strong acids
- flammable material
- solvents

10.6. Hazardous decomposition products
The thermal decomposition may release/form:
- carbon monoxide (CO)
- carbon dioxide (CO₂)
SECTION 11 : TOXICOLOGICAL INFORMATION

11.1. Information on toxicological effects

No data available.

11.1.1. Substances

Based on the physical and chemical properties of activated carbons, the absence of effects on toxicological studies and the therapeutic use of activated carbons as adsorbing agents for the treatment of acute poisoning and acute diarrhoea, it can be expected that Activated Carbon is not absorbed via the oral, dermal and inhalation routes.

**Acute toxicity :**

**ACTIVATED CARBON - HIGH DENSITY SKELETON (AC-HDS) (CAS: 7440-44-0)**

**Oral route :**

OECD Guideline 405 (Acute Eye Irritation / Corrosion)

**Respiratory or skin sensitisation :**

- Inhalation
  - No information available

- Skin
  - Not sensitising.

**ACTIVATED CARBON - HIGH DENSITY SKELETON (AC-HDS) (CAS: 7440-44-0)**

**Local lymph node stimulation test :**

Non-Sensitiser.
Germ cell mutagenicity:

All the key studies indicate that the substance does not show any genotoxic potential. Therefore, it can be concluded that the substance is not mutagenic and does not need to be classified for mutagenicity according to the criteria outlined in Annex I of 1272/2008/EC (CLP / EU GHS) and Annex VI of 67/548/EEC (DSD/DPD).

ACTIVATED CARBON - HIGH DENSITY SKELETON (AC-HDS) (CAS: 7440-44-0)

Mutagenesis (in vitro):
- Negative.
- Species: Bacteria
- OECD Guideline 471 (Bacterial Reverse Mutation Assay)

Ames test (in vitro):
- Negative.
- With or without metabolic activation.
- Species: S. typhimurium TA1535

Carcinogenicity:
No data available

Reproductive toxicant:
No data available

Specific target organ systemic toxicity - single exposure:
ACTIVATED CARBON - HIGH DENSITY SKELETON (AC-HDS) (CAS: 7440-44-0)

Oral route:
- C > 2000 mg/kg bodyweight
- Species: Rat

SECTION 12 : ECOLOGICAL INFORMATION

12.1. Toxicity

12.1.1. Substances
As Activated Carbon is insoluble in water, no toxicity is expected.

12.2. Persistence and degradability
Activated Carbon - HDS type is a refractory material and not amenable to break down by any natural chemical or enzymatic processes. AC - HDS cannot be rendered into a soluble form capable of being absorbed. Therefore it cannot find its way to any cell site where it could be conceivably be biodegraded.

12.3. Bioaccumulative potential
The substance has a very low potential to bioaccumulate in aquatic species (e.g. fish), i.e. a BCF < 10.
The substance has no log Kow, the substance size will impede passing membranes (particles with size > 0.5µm) and is not soluble in water. The bioaccumulation study is thus infeasible.

12.4. Mobility in soil
No data available, as the substance is insoluble.

12.5. Results of PBT and vPvB assessment
According to the ECHA Guidance on chemical safety assessment, Chapter R11, section R11.1.2.1: "The PBT and vPvB criteria of Annex XIII to the Regulation do not apply to inorganic substances". As Activated Carbon - HDS type is to be considered as an inorganic substance, the PBT assessment is not applicable.

12.6. Other adverse effects
No data available.
SECTION 13 : DISPOSAL CONSIDERATIONS

The appropriate waste management of the substance and/or its container must be determined in accordance with local regulations.

13.1. Waste treatment methods

Do not pour into drains or waterways.

Waste :

Waste management is carried out without endangering human health, without harming the environment and, in particular without risk to water, air, soil, plants or animals.

Recycle or dispose of waste in compliance with current legislation, preferably via a certified collector or company.

Do not contaminate the ground or water with waste, do not dispose of waste into the environment.

Soiled packaging :

Empty container completely. Keep label(s) on container.

Give to a certified disposal contractor.

SECTION 14 : TRANSPORT INFORMATION

14.1. UN number

1362

14.2. UN proper shipping name

UN1362=CARBON, ACTIVATED

14.3. Transport hazard class(es)

- Classification :
  4.2
- Exemption
  ADR/RID: special provision 646
  IMDG: special provision 925

For limited quantities, see part 2.7 of the OACI/IATA and chapter 3.4 of the ADR and IMDG.

For excepted quantities, see part 2.6 of the OACI/IATA and chapter 3.5 of the ADR and IMDG.
14.7. Transport in bulk according to Annex II of Marpol and the IBC Code
No data available.

SECTION 15 : REGULATORY INFORMATION

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture
The following regulations have been used:
- Globally Harmonized System of Classification and Labelling of Chemicals (GHS), review no. 5 (2013)

- Container information:
No data available.

- Particular provisions:
No data available.

- Standardised American system for the identification of hazards presented by the product in view of emergency procedures (NFPA 704):
NFPA 704, Labelling: Health=0 Inflammability=1 Instability/Reactivity=1 Specific Risk=none

15.2. Chemical safety assessment
A chemical safety assessment according to the rules stipulated in REACH directive has been performed. The appendices provide an overview of the risk management measures as based on this assessment.

SECTION 16 : OTHER INFORMATION
Since the user’s working conditions are not known by us, the information supplied on this safety data sheet is based on our current level of knowledge and on national and community regulations.

It is at all times the responsibility of the user to take all necessary measures to comply with legal requirements and local regulations.

The information in this safety data sheet must be regarded as a description of the safety requirements relating to the substance and not as a guarantee of the properties thereof.

Abbreviations:
DNEL : Derived No-Effect Level
ADR : European agreement concerning the international carriage of dangerous goods by Road.
IMDG : International Maritime Dangerous Goods.
IATA : International Air Transport Association.
ICAO : International Civil Aviation Organisation
RID : Regulations concerning the International carriage of Dangerous goods by rail.
