

PRODUCT BULLETIN

ISSUE/DATE:	February 2025	BULLETIN NUMBER:	25-PB-CV-UVSWIFTSC OPTION SIMPLIFICATION
TOPIC:	TrojanUVSwift®SC OPTION SIMPLIFICATION	PRODUCT LINE:	TROJANUVSWIFTSC

OVERVIEW

The TrojanUVSwiftSC product was introduced in 2002 to provide UV treatment for drinking water. Since then, it has been installed in drinking water facilities around the world and is relied upon daily for effective water treatment.

At Trojan Technologies, we continually review all aspects of our business to ensure we are providing best in class quality product, effective and efficient service to our customers. As a result of this review, Trojan has decided to simplify the options available for the TrojanUVSwiftSC products starting January 2025. Please see below for the details.

Applicable models	Standard Options No Longer Available
SwiftSC D12, D30	PN16 Flange only option
SwiftSC D03, D06, D12, D18, D30	Outlet orientation at 3/6/9 O'clock

As previously communicated, the SwiftSC D-Series product line is no longer available for sale using a DVGW sizing methods. The unit only holds a validation under the USEPA UVDGM. This change does not impact systems that were installed prior to the expiration of the DVGW certification.

It is important to note that service and replacement parts, such as lamps, sleeves, ballasts, control circuit boards and wiper seals will continue to be stocked and available.

If you have special project needs for UVSwiftSC product, please contact Trojan Pre-Engineered Solutions Sales team for possible custom solutions.
